

Risk and Credit Portfolio Management Workshop

25 July 2018, Conrad Centennial Hotel, Singapore

Jointly organized by IACPM and RMI

This Workshop provides an essential course on the basics of credit portfolio management, including Evolution of Risk and Credit Portfolio Management and Applied Topics. Among the issues to be addressed are: IFRS 9 and implementation impact; balancing the multiple constraints of liquidity and capital in practice; applied discussions on counterparty risk; expanding roles of development banks and their private sector operations and case studies on current risk and portfolio management business models and practices. Participants will gain practical knowledge and valuable insights on credit portfolio management organization, tools and techniques from senior practitioners at major financial institutions.
